Mr. G. Batty,
Thermoshield Aust. Pty. Ltd.,
Factory 56,
65-67 Canterbury Rd.,
MONTROSE, VIC. 3765

Dear Gavin,

As an extremely satisfied customer of yours, I believe any potential customers should be assured of the benefits of applying Thermoshield as a means of protection against the heat brought on by our hot Australian summers.

I own and operate a very successful retail fruit and vegetable business where the freshness of my produce is of the utmost importance, hence my decision to apply Thermoshield to both my truck and the outside coolroom. The difference in temperature has been dramatic. Especially noticeable is the effect that it has had on the produce whilst in the truck for the long journey back to the shop from the Footscray market. I have noticed, for example, that the green leaf vegetables remain crisper, hence extending their shelf life, as well as all produce being much cooler to touch.

I believe Thermoshield to be an excellent form of insulation and have no hesitation in recommending it as an effective product.

Yours sincerely,

J.C. Chapman
